

PRANAV SHIGVAN

• FRONTEND WEB DEVELOPER •

ABOUT ME

I am a self-taught web developer passionate about building pixel-perfect and responsive websites. I love to convert designs into code, currently focused on frontend technologies. I also have basic understanding of some backend technologies

EDUCATION

12th science, Maharashtra state board of secondary and higher secondary education.

freecodecamp's certificate course in Responsive web design. [link](#)

SKILLS

HTML	React	Bootstrap	Firebase
CSS	React-redux	Jquery	Express
javaScript	Router	Git & GitHub	Mongoose

PROJECTS

TODO App

- Implemented CRUD operations.
- Utilized browser storage to keep up with users data
- Applied basic React design principles.

[Code](#) [Live](#)

Country information app

- Used country API to get data and populate the website.
- Got familiar with Fetch API to fetch data
- Added navigation with react-router, focused on responsive design.

[Code](#) [Live](#)

IP Addresss tracker

- Combined two different APIs to build an interactive web app.
- Embedded map to show locations based on IP address.
